Challenge 1 Worksheet

✅ **Create a new stitch pattern:**

- Download the fish motif and the custom red/white/blue palette
- Create a new stitch pattern (50px x 50 px)
- Use the custom red/white/blue palette

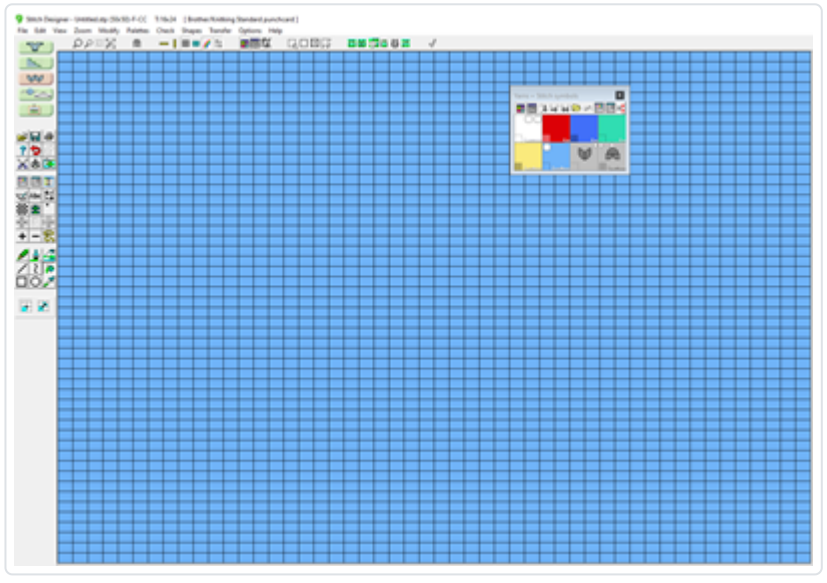

Your workspace should look like this

✅ **Change the background color:**
Working with a white background can be difficult on the eyes

- Use the Flood Fill (Paintbucket) Tool

~or~

- Use >Edit >Clear Stitch Symbols

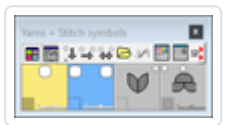

Your workspace should look like this

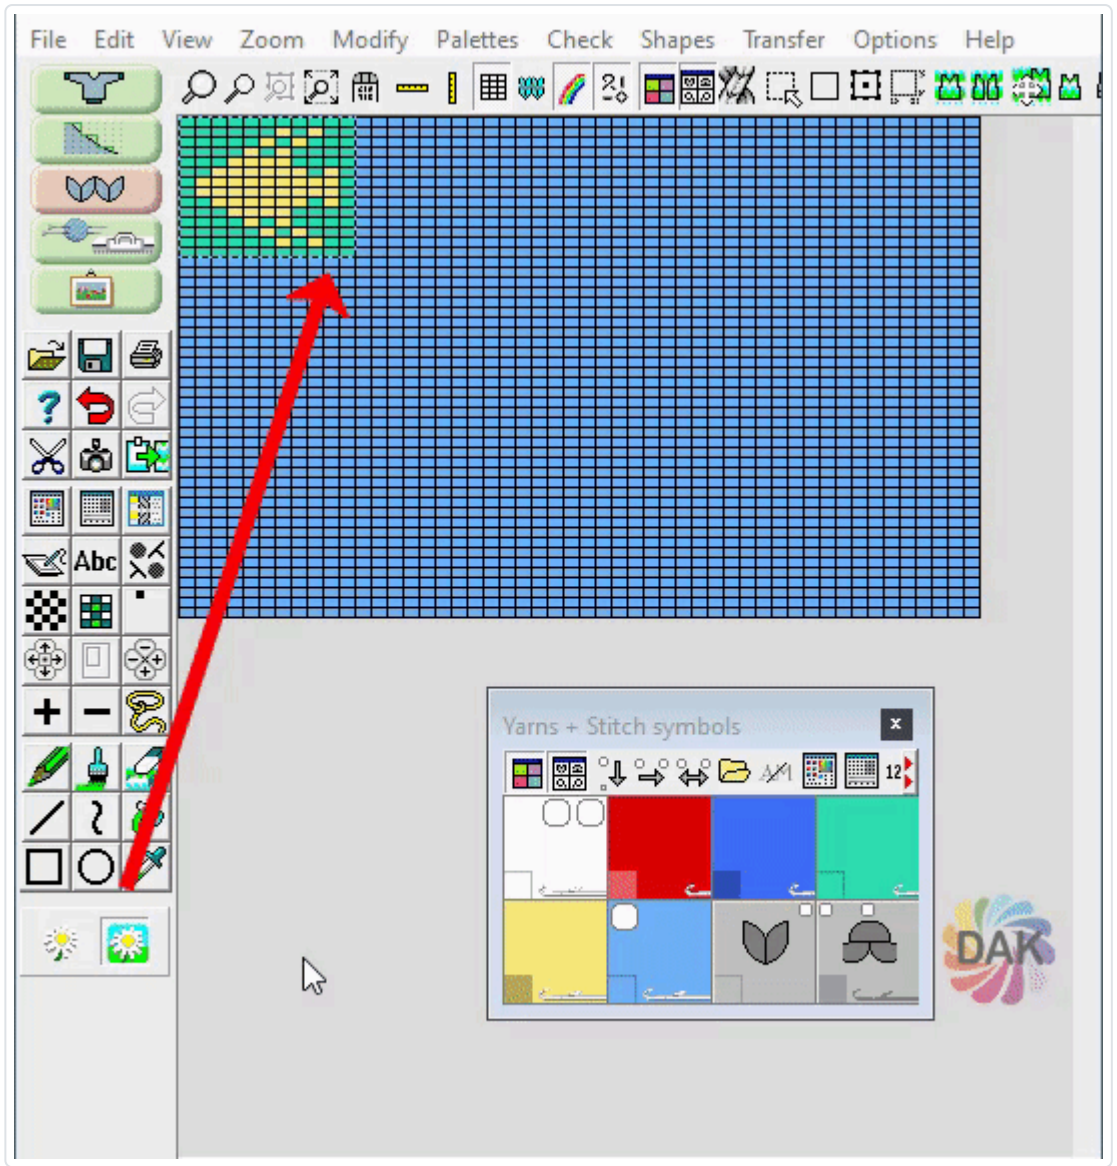

✅ How many colors are in the yarn Palette?

- Import the fish.stp motif
- Keep the selection box active. (don't click or press enter)

✅ How many colors are in the yarn Palette after the import?

- Use the Daisy Buttons to show the transparent green color
- Hide the green color (left daisy button)
- Complete the import by clicking outside the selection box or pressing enter
- Delete unused colors in the Yarn Color Setup
- Your clean yarn palette (showing only colors in use) should look like this:

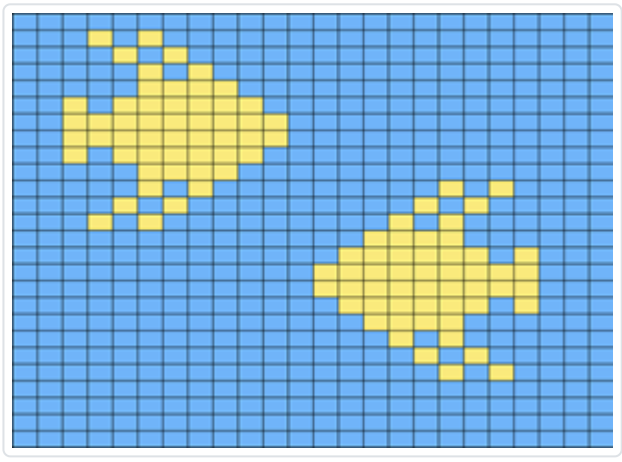

Hide the transparent green color with the Daisy Button

✅ Arrange your fish to look like the image.
Hint

1. Use the menu >Modify >Flip
   ~or~
2. Use the menu >Modify >Variations

Copy and Paste are other options ... and don't forget shuffle

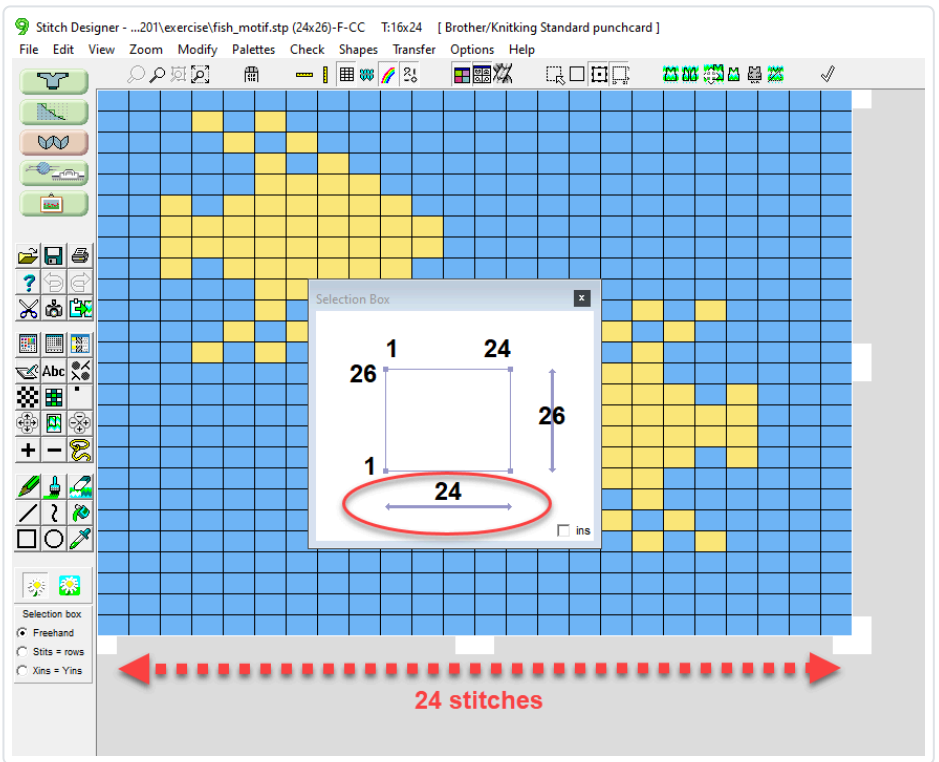

✅ Arrange your fish and size the design for a punchcard (24 stitches wide)

Hint:

1. Use menu >Edit >Redefine
   ~or~
2. Use the Redefine tool Tool
